

## About Landrum & Brown

Our mission is to enhance the world by bringing passion and creativity to solve the most complex global aviation challenges. Our integrated services span master planning and strategy, airfield and airspace, terminal planning and design, environmental, business and finance, ground transportation, commercial development, and activation planning services.

## About the Environmental Team...

Airport operators and government agencies face a complicated matrix of environmental approval processes, regional policies and stakeholder expectations. L&B provides expert experience and global best practices to progress airport development, environmental compliance and sustainability stewardship.

Over the last three decades, one of the most important issues facing airports is the increasing requirement to fulfil environmental regulations and permits, as well as demonstrate leadership in reducing the environmental impact of the airport. L&B has earned a reputation as one of the most well respected and successful aviation environmental firms in the world.
